## TROUBLous SEAS.

*Albany Express*.—The four big C's that the country now sees—Cleveland, the Change, Calamity and Collapse.

+

## TARDY.

*St. Louis Globe-Democrat*.—The pension dropping policy is a long time getting around to the case of General John A. Black.

+

## OWNS UP.

*Kansas City Journal*.—Now let President Cleveland be as candid as Admiral Tyrone and confess: "It was all my fault."

+

## ACQUAINTED.

*Rochester Post-Express*.—We know of a large red apple that we will wager on the certainty that Mr. Cleveland will use the word "my" in his silver message.

+

## UNDETERMINED.

*Kansas City Journal*.—Even the most partisan Democrat must admit that a Republican President and Congress are not so bad as a "want of confidence" epidemic.

+

## INEVITABLE.

*St. Louis Globe-Democrat*.—If the sugar duty isn't restored at the special session it will be at the regular session, and the people may as well prepare to pay a higher price for that indispensable article.

+

## ANTI-REPUBLICAN.

*Chicago Inter-Ocean*.—The Republican party of 1892 don't have to father or defend the Governor of Illinois, of Colorado or of Oregon. Two of them are Democrats and one a full grown Populist! Next.

+

## OF TRIPPING IMPORTANCE.

*Boston Journal*.—The interests menaced by the Tariff smashing programme of the Democrats, recently contemptuously described by a Tariff reform organ as "a few manufacturers," represent a capital of \$4,000,000,000, turn out a product of \$8,500,000,000 and pay annually in wages \$1,221,170,454.

+

## ONLY A DROP.

*New York Press*.—The recent bank failures in the West and South serve to remind the public what the result would have been were the Bourbon demand for the repeal of the state bank tax an accomplished fact and the country flooded with the wildcat notes of these defunct institutions.

+

## THE TABLES TURNED.

*New York Press*.—The suspension of banks, the closing of mills and mines and the general cry of distress that is heard in all parts of the country at present are almost as striking as the erection of new mills, the enlargement of old ones and the general demand for labor that followed the enactment of the McKinley Law.

+

## DIFFERENT.

*Chicago Inter-Ocean*.—The President is reported as "making up the committees of Congress" between lines. Crisp will have nothing to do but announce them. It facilitates business. If President Harrison had been one-half as near a "dictator" as President Cleveland is there would have been one prolonged howl from ocean to ocean and from the lakes to the gulf.

+

## "A RICH MAN'S PANIC."

*Philadelphia Inquirer*.—The steel plant of the Phoenix Bridge Company at Phoenixville has shut down and the most gloomy prophecies are made for the future. The workmen in this section of the country has so far not suffered greatly from what has been called a rich man's panic. Unfortunately, the rich man's panic is pretty sure to reach the workmen after while. The votes of the workmen are largely responsible for the present condition of affairs, and if trouble comes to them at least they can not complain that they did not have fair warning.

+

## THE GREATEST LOSS.

*New York Press*.—Neither the repeal of the Sherman Silver Law nor the final settlement of the silver question (if such desirable settlement were immediately possible) can obscure the greater question of the Tariff nor relieve the Administration of its responsibility for the present condition of America's industry. Not all the silver that was ever wrought from the trans-Missouri mountains could compensate the American people for the losses sustained by the demoralization of business and the shrinkage of values since the day of Mr. Cleveland's second inauguration.

## FOR CONTEMPT.

Fair Commissioners Fined One Thousand Dollars.

Some Get Off With a Less Penalty for Closing on Sunday,

According to Recent Law and Knowledge of the Office—A Policy of leniency to begin, and Thousands of Employees to be Discharged.

CINCINNATI, Aug. 3.—Judge Stein of the superior court yesterday morning decided that the Works Progress Administration and officers who had been directly responsible for closing the exposition gates Sunday, July 31, had violated the injunction granted in the Clingman case. He ordered the Directors George Hutchinson, Henrietta McNally and Kerfoot should be fined \$1,000 each and stand committed to jail until the fine was paid.

The court of Director Victor F. Lawrence, the court held that the officer had voted in the belief that the injunction had lapsed and was not intentionally guilty. In view of this mitigating circumstance a fine of \$100 was imposed.

Director General George R. Davis was held less directly responsible and was fined \$50, with the same provisions regarding payment.

Moses Masse, Peter St. Clair and John St. John were excused by Judge Stein as innocent for their account of the directors' ruling and were discharged. Director Nathan was also discharged.

Attorney Eddy, representing the fair management, moved for an appeal from the court's ruling, but the motion is now being discussed.

Other officers were all in court.

At the conclusion of the arguments Judge Stein announced an appeal.

WORLD'S FAIR, CINCINNATI, Aug. 4.—The decision of the Works Progress Administration to reduce operating expenses has caused a panic-like feeling to spring up among the thousands of employees. Each one of them seems to year that he may be the next to go, and several industry leaders are eager to make a show of working hard that he now displays. The anxious employee is truly marvelously.

**CONFIDENTIAL NOT SACRED.**

Starting Decision Made by an English Chief Justice.

LONDON, Aug. 5.—Priestly circles are considerably agitated over a ruling just made by Sir Archibald Macmillan, chief justice of the court of probate and divorce, to the effect that a minister of the gospel has no right to plead privilege when asked to state in court the substance of a confidential communication made to him in his capacity by one of his parishioners. Hitherto it has been the unwritten law in England as well as many other countries that a divine shall not be compelled to disclose what communions he has received. Roman Catholic priests are exempt from disclosing statements made to them under the sanctity of the confessional.

In the case in court the divine belonged to the high church branch of the English church organization, and was in the habit of hearing confessions. The court, however, compelled him to disclose the information that had been made to him. Several Catholic priests, who have been interrogated concerning the question do not seem to know what to do; rather than reveal the secrets of the confessional on the witness stand.

Women Lawyers to Meet.

CHICAGO, Aug. 5.—The first general meeting of women lawyers ever held will take place in Chicago Thursday, Friday and Saturday at the Hotel Club house, under the auspices of the Queen Isabella association. All women in the United States and elsewhere, who have been admitted to the bar of a court of record or graduated from a law school, have been especially invited to be present. Ellen A. Martin, chairman of the committee of arrangements.

Break at Birmingham.

BIRMINGHAM, Ala., Aug. 5.—The First National, the oldest bank in Birmingham, failed to open its doors Wednesday morning. Notice on the door says that the bank was unable to deposit and inability to count the cash fast enough to meet the same, caused the suspension. The capital is \$900,000; assets, \$1,000,000; liabilities, \$650,000. Encumbrance on the higher, and runs are threatened on the other banks.

A Colored Postman.

WASHINGTON, Aug. 5.—The Negro domestics at the last have been recognized in a federal appointment. George Harding, a colored man of Wilberforce, Green county, having been appointed postmaster at that place. The post office had a colored population and the entire lot there have been only about three domestics, one of whom is Harding.

The Alliance Sails for Nicaragua.

WASHINGTON, Aug. 5.—A cable message was received at the navy department Tuesday announcing that the United States ship *Alliance* would sail for Panama Monday for Corinto, Nicaragua, where her presence is greatly needed.

Blockade Lifted.

LOMÉ, Togo, Aug. 5.—Sir Edward Grey, president of the League of Nations, announced in the house of commons, Wednesday afternoon, that the French blockade of Bangkok had been raised.

Ha Thought the Moon Was a Headlight and So Reported.

It was a sleepy little Massachusetts town, but there was a railroad running through it, and for the accommodation of a few summer patrons of the line a hotel had been built, called the Hotel Herald.

The post office had separate post offices, but they lived in perfect sanity, as I had full opportunity of knowing later. I once said what a wonderful thing it was for three wives to live together like the three sisters, but I was immediately rebuked. "What is it?" he said. "It is because his highness never shows any preference for one more than the others; if one is favored to-day, the others have their turn to-morrow." I thought him a wonderful man to keep the balance so even.
